The Croswell-Lexington School District rolled out our new text messaging system that will go along with our email and our voicemail system. You will be receiving a text message from a short code number 68453 that will ask you to respond by opting in or opting out. You can opt in by replying YES. This will allow you to receive further text messages from the district to your cell phone. Your cell phone number needs to be listed in your child’s contact information at the school. You can check this by logging into Skyward Family Access. Some of you may have already received the text message. If you haven’t you will receive a message later today if your cell phone is connect to your child in Skyward.
